Protecting the Amazon Forest

IMAZON, BRAZIL

Earth Observation and GIS communities fighting the climate crisis

SPOT5, Brazil - 2007

Why

Most protected areas in the Brazilian Amazon are under tremendous anthropogenic pressure.

What for

- Reduction of illegal human pressure.
- Protection of the biodiversity and carbon stocks.
- Improvement in quality of life of local communities.

Results

- 12.8 million hectares of conservation units created in the Pará Calha Norte region, of which 7,4 million hectares are State Forests.

Where

Brazil: State of Pará, Calha Norte region

Who

IMAZON

Team

- Secretaria Estadual de Meio Ambiente
- Museu Paraense Emílio Goeldi
- Conservation International, Brasil
- Gordon and Betty Moore Foundation
