SEAHORSE is exploring Coastal Resources

ZOOLOGICAL SOCIETY OF LONDON, PHILIPPINES

Earth Observation and GIS communities fighting the climate crisis

SPOT5, Danajon Bank - 2004

Why

The Philippines Coral Reefs support the livelihoods of many people through fishing. These coastal habitats are in crisis due to over-exploitation, pollution and Climate Change. Only 5% of the Coral Reefs in the Philippines are still pristine.

What for

- Develop management strategies for coastal communities and ecosystems.
- Identify areas most threatened by habitat loss and seaweed farming.
- Assess the ability of habitats to recover from degradation.

Where

Philippines: The Danajon Bank

Who

Team

- Project Seahorse Foundation
- University of British Columbia
- John G. Shedd Aquarium

Planet Action is a non-profit initiative launched by Spot Image and joined by participating partners.
