

PLANET ACTION
Spot the impacts, engage in action

Pan-Tropical Forest Cover and Carbon Stock

THE WOODS HOLE RESEARCH CENTER, UGANDA

Earth Observation and GIS communities fighting the climate crisis

Why

The purpose of this project is to strengthen the participation of tropical and subtropical countries in the emerging carbon markets.

What for

- Generate forest and biomass cover.
- Develop carbon monitoring systems under the REDD mechanism.
- Build national and regional capacity through technology transfer.

Where

Uganda: Albertine Rift Region

Who

Team

- National Forest Authority
- Uganda Wildlife Authority
- Jane Godall Institute
- University in Kampala
- Institute for Tropical Forest Conservation

Planet Action is a non-profit initiative launched by Spot Image and joined by participating partners.
